Conference with an international participation
May 12, 2014
Faculty of Architecture, Slovak University of Technology in Bratislava

Conference with an international participation **Water and City – Brownfields** organized by Faculty of Architecture, Slovak University of Technology in Bratislava. The conference is organized with the support of International Visegrad Fund in the frame of project "MobEx 2013–2014. Water and City – Brownfields" (No. 21310101).

Conference topics solve the issue of brownfields, which are located in the contact with water (watercourse, water area) in the V4 countries and the possibilities of their revitalization in the selected Urban and landscape structures.

The participants have the opportunity to present their own posters on the exhibition in the frame of conference.
